Texture

___/10 Idea development

___/10 Feedback

Criteria for the texture project

Materials technique: How well you use charcoal, ink, pastel, coloured pencil, and so on to create accurate line, shape, and shading.

Texture: How well you capture the visual sense of each texture.

Composition: How well you create an artwork that is fully complete, well-balanced, and non-central. If you are using colour, this includes using a clear colour scheme.

Be creative. Try doing something unusual. Everything has some kind of texture. Look for things most people wouldn't see or make up your own texture <- (really fun). -EM

Draw some textures in the thumbnail drawing and use the corresponding ones for the final drawing. -JC

When drawing texture you must get the most important lines down first. For example, if you were to be drawing someone's hair the first lines should be roughing out the shape or basic details. -DM

Make sure that you use many different textures in your drawing to make it look as interesting as possible. Also make all the textures very detailed. -MS

When drawing texture focus on the tiny details. Keep looking at your images (every snowflake looks different). Don't start patterns unless there is one. -LC

Do the most detailed sections first. Then it won't be as hard to fill in the rest because you will already have done the most challenging part. -TV

Draw what you see, not what you know - observe things carefully and don't draw things because you think they should be there. -MS

Use high res reference images and look very closely at the textures. Pick a composition that has room for lots of textures. Don't spend too long sketching stuff out. -LS

Observe textures closely. Every detail counts. -JB

If you decide to use charcoal work from the inside out to get the least amount of smudging. -CW

Make sure you have a 100% sure idea because you don't want to switch ideas halfway into the project. -PM

Some textures are created. Created textures are more like a pattern than realistic. Draw a collection of created textures in your sketchbook.

Skill builders Hand Texture

Sometimes texture is created, and sometimes it is observed. Sometimes interesting things happen when you put an unexpected texture on a shape.

Draw your hand in your sketchbook. Avoid tracing: the lack of observation will set you up for a rough start. Then draw a different texture for each of your fingers.

CROSSHATCHING AN EYE

- PENCIL OUTLINE**
- Can be loose & messy!
 - Outline areas of shadow
 - Double-check proportions

- HORIZONTAL LINES**
- Keep shadows light
 - Avoid areas you're unsure of
 - Don't erase outlines yet!

- VERTICAL LINES**
- Start to darken
 - Emphasize edges so you can erase outlines after

- DIAGONAL LINES**
- Add details with small marks
 - Line direction should still respond to 3D shapes

- DARKEN & REFINE**
- Make darkest areas black
 - Preserve those highlights!
 - Focus on tiny details in iris
 - Add some outline to clarify
 - Take a step back & admire!

HOW TO AVOID COMMON CROSSHATCHING MISTAKES

A DECENT-LOOKING SPHERE!

- FULL RANGE OF DARK & LIGHT
- OUTLINE CLARIFIES WITHOUT BEING DISTRACTING

RATE OF GRADATION

Sometimes the nature of the light source, or the size and shape of the form, affects the rate of the transition between light and shadow values. To account for this, you should practice to control how fast or slow the values shift between light and deep values.

THE BASIC STROKES

These are the main types of strokes used to create most pen and ink drawings. Note that each may appear in a variety of forms. Practice until you are sufficiently proficient with each of them and are able to recognize and distinguish their use in works of other artists.

Aim to be as proficient as possible with as many of the basic strokes as possible. Each bears its own unique characteristics, which gives you more versatility and can make your artwork more visually appealing.

6-STEP VALUE SCALE

Creating value scales is one of the most invaluable exercises in drawing. With pen and ink drawing, you will find that each type of basic stroke presents its own challenge. Experiment with the variations to see what types of adjustments are needed in order to convey value change.

SHADING BLOCK FORMS

This exercise expands the value range to six values and increases the complexity of the forms. However, the same basic principle applies, so determining the value for each plane is not as elusive as you may think. Study the orientation of each plane with respect to the light source.

Use the numbers as a guide to assigning values to each plane.

Blend **one colour** of pastel smoothly from dark to light

Blend **one colour + a light colour** smoothly from dark to light

Blend **one colour + a dark colour** smoothly from dark to light

Blend **three colours** smoothly together to make a colour wheel

Pastels

Stipple - two colours smoothly together with dots

Sgraffito - put down a thick base layer of a **light colour**, cover it with a **dark colour**, then scratch through!

Idea Development

1 Generate ideas

maximum of 50%

Use lists, a web map, or simple drawings to come up with a LOT of ideas! If you already have an idea in mind, choose that as your central theme and expand upon it. Let your ideas wander - one idea leads to another. Drawings can be details of source images, different viewpoints, textures, technical experiments, etc.

Number of **words** → _____ × 1% = _____%

Number of **sketches** → _____ × 3% = _____%

2 Select the best and join together ideas

Circle the best ideas circled = □ 5%

Link into groups of ideas linked = □ 5%

3 Print reference images

- Print **EIGHT** reference images so you can accurately observe the challenging parts of your artwork. Taking your and using own photographs is preferred, but image searches are also fine.
- **Do not simply copy a picture that you find.** The idea is to edit and combine source images to create your own artwork. If you simply copy a picture, you are plagiarizing and will earn a zero for your idea generation and any criteria involving creativity in your final artwork.
- Up to half of your pictures may be of drawings, paintings, or other artworks of others to use as inspiration. The other images must be realistic photographs.
- You must hand in the **printed** copy of the images to earn the marks.

_____ images × 5% = _____% *maximum of 8 images*

4 Rough copy

- Take the best ideas from your thumbnails and combine them into an improved rough copy.
- Use this to work out the bugs and improve your skills before you start the real thing.
- If you are using colour, use paint or coloured pencil to show your colour scheme.
- Draw in a frame to show the outer edges of your artwork.
- **Remember to choose a non-central composition.**

_____ drawing × 25% = _____% *great quality or better*

Material technique

Consider observation, accurate line detail, shapes, blending, and shading. Also consider different kinds of mark-making, keeping the medium crisp and dynamic, colour mixing, etc.

Texture

Consider the variety of textures, the quality of each area of texture, the quality of observation for realistic textures, and so on.

Composition

Consider whether they have a complete all-over base layer, how well the background is developed, do they have a clear colour scheme, and how well balanced the textures, colours, lights and darks are in the artwork. Also consider providing advice on how to complete the project.

Be specific: say **WHERE** it is, and **WHAT** they should **DO/WHAT** is going well

Example: “You can make the *texture in his hair* better by *observing the shapes of the lights and darks*”

You should offer **FIVE pieces** of positive and negative feedback.
