My favourite movie: Kingsman - The Secret Service: it's cool, it's fun, it's full with cool action scenes, like the church scene, seeing the people in the church killing each other ~~etc~~ of evil brain waves created by an evil billionaire who has a plan to kill most of humanity to stop global warming. Thinking of it, stopping global warming is actually good, but killing humanity, no, not good. The movie reminds me of James Bond, talking about it, the best J.B movie is Casino Royale. And the best scene is the gambling in the casino. It was so tense, and I've visited the place where they filmed, which is Nassau, Bahamas. Oh, that was a decent place.

# Drawing basics — Angles and basic shading

Kazimir Malevich, **Woodcutter**, 1912-13  
Oil on canvas, 94 x 71.5cm, Stedelijk Museum, Amsterdam, Netherlands

Redraw this picture as carefully as you can, focusing on angles and shading. Capture the shapes and aim for clean, smooth shading.

# Advice for getting GREAT darkness, smoothness, & blending

- **Go slow!**  
Going fast ruins your smoothness.
- **Go dark!**  
The richer your blacks, the more your artwork pops off the page.
- **Shade in layers!**  
It will be way easier to blend and get things smooth
- **Don't smudge!**  
Build up smoothness with your pencil instead. Smudging usually makes your drawing look dirty
- **Compare!**  
Look to see how light or dark things are compared to each other.
